Contract [] Task Order 2, Technical Consultations

25X1

1. The subject contract and task order with []
[] is a power sources study to develop new power
sources required by the Agency. Present investigations concern
fuel cells, solid electrolyte batteries and thermoelectric
generators. Allied studies are currently in progress at the
Diamond Ordnance Fuse Laboratory, Washington, D. C. and the
Franklyn Institute Laboratories, Philadelphia, Pennsylvania.

2. It is felt that consultations between technical
representatives of [] and the above laboratories
are within the scope of the task order and would result in
maximum effectiveness in performance of this task. To further
this end it is requested that clearances and authorizations for
visits be arranged for [] and
[] to visit
the Franklyn Institute Laboratories for talks with []
[] and the Diamond Ordnance Fuse Laboratory for talks
with []
